## HTA-Heel Traction Aid

Ideal for drivers, delivery personnel or anyone operating machinery where use of a conventional, full coverage traction aid may interfere with driving capabilities.

- The HTA has two unique design features that quickly and easily allow the user to flip the traction pad or slide the traction pad out from underneath the heel when encountering a walking surface that may be damaged
- Convenient hook and strap with adjustment system provides a quick, easy, comfortable and secure fit on a wide variety of footwear
- 8 Tungsten Carbide Due North® Ice Diamond™ Spikes, along with bi-directional tread, provides powerful traction with maximum grip
- Exclusive specially formulated 100% natural rubber – provides maximum flexibility and durability in extreme cold conditions

### FLIPPING FEATURE

## LT. Industrial

Ideal for the worker who occasionally needs additional traction on ice and snow while performing outdoor duties.

- 12 "Military" grade tungsten carbide "replaceable" spikes maximize traction and performance
- Spike patterns have been strategically placed at the heel and front of the sole, leaving the mid-sole area open for safe ladder use – no need to remove our traction aids when climbing or descending ladders (mid-soles models excluded)
- Exclusive specially formulated 100% natural rubber – provides maximum flexibility and durability in extreme cold conditions
- Improved toe-box design enhances fit and function
- 360° spike pattern provides more push and lateral grip
- Unique support hole on heel strap provides easy adjustment, allowing easy put-on and take-off characteristics
- Proprietary tread design for added slip resistance
- A low-cost solution for light duty, intermittent use work environments

SIZES	FIT
Small / Medium	Men 3–7, Women 5–9
Large / X-Large	Men 8–14, Women 5–9

**K1 MID-SOLE™  
ICE CLEAT**

## Mid-Sole Ice Cleat– Low Profile

The low-profile model is designed for footwear with a shallow arch in the sole of the foot, often found in hiker-style or tactical boots. The low-profile model has a narrower rubber platform and shorter studs, providing the necessary traction, fit, and comfort.

- Available in Original, Low-Profile, and High-Profile styles to provide near-universal coverage of all footwear
- Strategically placed ice-penetrating tungsten carbide spikes provide maximum traction on ice and snow
- Easy to use design rotates to top of foot to allow driving, climbing, and indoor use
- Black or hi-viz adjustable strap delivers a perfect fit regardless of shoe size
- Specially formulated rubber pad provides maximum comfort and durability even in extreme cold weather conditions

## Mid-Sole Ice Cleat– Original Profile

The original and most popular mid-sole ice cleat (K1MID). Featuring a hi-viz orange strap and durable tungsten carbide studs, the K1MID is most often used with a traditional, defined-heel work boot.

- Available in Original, Low-Profile, and High-Profile styles to provide near-universal coverage of all footwear
- Intrinsic design is certified to prevent sparking when working in areas where combustible materials may be present
- Proud to be the only fully certified intrinsic ice-cleat brand in North America
- Strategically placed ice-penetrating spikes provide maximum traction on ice and snow
- Easy to use design rotates to top of foot to allow driving, climbing, and indoor use
- Hi-viz adjustable strap delivers a perfect fit and provides enhanced safety in low lit working conditions
- Specially formulated rubber pad provides maximum comfort and durability even in extreme cold weather conditions
